

INTRODUCTION	1
About This Book	1
About the Fourth Edition	2
Foolish Assumptions	2
Icons Used in This Book	3
Beyond the Book	3
Where to Go from Here	3
 PART 1: GETTING STARTED WITH SPSS	 5
CHAPTER 1: Introducing SPSS	7
SPSS's Job, Our Job, and Your Job	7
SPSS's job	8
Our job	8
Your job	9
Garbage In, Garbage Out: Recognizing the Importance of Good Data	9
Talking to SPSS: Can You Hear Me Now?	12
The graphical user interface	12
Syntax	12
Programmability	13
How SPSS works	13
Getting Help When You Need It	15
 CHAPTER 2: Finding the Best SPSS for You	 17
Campus Editions	19
Subscription Plans	20
Commercial Editions	22
What's New in Version 27	24
 CHAPTER 3: Getting to Know SPSS by Running a Simple Session	 25
Opening a Dataset	25
Running an Analysis	27
Interpreting Results	30
Creating Graphs	33
Investigating Data	37

PART 2: GETTING DATA INTO AND OUT OF SPSS 43

CHAPTER 4: Understanding SPSS Data: Defining Metadata 45

Entering Variable Definitions on the Variable View Tab	46
Name	47
Type	47
Width	51
Decimals	52
Label	52
Values	53
Missing	54
Columns	55
Align	55
Measure	55
Role	56
Entering and Viewing Data Items on the Data View Tab	56

CHAPTER 5: Opening Data Files 59

Getting Acquainted with the SPSS File Format	59
Reading Simple Data from a Text File	60
Transferring Data from Another Program	65
Reading an Excel file	67
Reading from an unknown program type	68
Saving Data	69

CHAPTER 6: Getting Data and Results from SPSS 71

Exporting Data to Another Program	71
Navigating SPSS Statistics Viewer	72
Moving SPSS Output to Other Applications	74
Copying and pasting output	74
Exporting output	75
Printing Data	80

CHAPTER 7: More about Defining Your Data 81

Working with Dates and Times	82
Using the Date and Time Wizard	84
Creating and Using a Multiple-Response Set	86
Copying Data Properties	90

PART 3: MESSING WITH DATA IN SPSS 95

CHAPTER 8: The Transform and Data Menus 97

Sorting Cases	97
Selecting the Data You Want to Look At	100
Splitting Data for Easier Analysis	103

Counting Case Occurrences.....	104
Recoding Variables	107
Recoding into different variables	107
Automatic recoding.....	110
Binning	113
Optimal Binning.....	117
CHAPTER 9: Computing New Variables	119
Calculating a New Variable with a Formula	120
Calculating a New Variable with a Condition.....	122
Using System Variables.....	124
Contrasting \$Sysmis with SYSMIS.....	125
Understanding Missing Data in Formulas	127
Efficiently Calculating with Multiple Formulas	129
CHAPTER 10: Some Useful Functions	133
The LENGTH Function.....	134
The ANY Function	137
The MEAN Function and Missing Data	139
RND, TRUNC, and MOD	141
Logicals, the MISSING Function, and the NOT Function	143
String Parsing and Nesting Functions.....	144
Calculating Lags.....	146
CHAPTER 11: Combining Files	147
Merging Files by Adding Cases	147
Merging Files by Adding Variables	152
PART 4: GRAPHING DATA.....	161
CHAPTER 12: On the Menu: Graphing Choices in SPSS.....	163
Building Graphs the Chart Builder Way.....	164
The Gallery tab.....	164
The Basic Elements tab.....	168
The Groups/Point ID tab.....	169
The Titles/Footnotes tab.....	170
The Element Properties tab.....	170
The Chart Appearance tab.....	176
The Options tab	177
Building Graphs with Graphboard Template Chooser	178
CHAPTER 13: Building Graphs Using Chart Builder.....	183
Simple Graphs	184
Simple scatterplots	184
Simple dot plots.....	185

Simple bar graphs	186
Simple error bars	187
Simple histograms	189
Population pyramids	191
Stacked area charts	192
Fancy Graphs	194
Charts with multiple lines	194
Colored scatterplots	196
Scatterplot matrices	198
Stacked bar charts	199
Pie charts	200
Clustered range bar graphs	202
Differenced area graphs	202
Dual-axis graph	204
Fancy Maps Using Graphboard Template Chooser	205
Heat map	206
Choropleth of values	206
Coordinates on a reference map	209

PART 5: ANALYZING DATA 211

CHAPTER 14: Using Descriptive Statistics 213

Looking at Levels of Measurement	213
Defining the four levels of measurement	214
Defining summary statistics	215
Focusing on Frequencies for Categorical Variables	217
Understanding Frequencies for Continuous Variables	221
Summarizing Continuous Variables with the Descriptives Procedure	224

CHAPTER 15: Knowing When Not to Trust Your Data 227

Sampling	227
Understanding Sample Size	228
Testing Hypotheses	229
Calculating Confidence Intervals	231
Conducting In-Depth Hypothesis Testing	232
Using the Normal Distribution	235
Working with Z-Scores	236

CHAPTER 16: Testing One Group 239

Conducting Inferential Tests	239
Running the Chi-Square Goodness of Fit Test	240
Running the One-Sample T-Test Procedure	246

CHAPTER 17:	Showing Relationships between Categorical Variables	251
	Running the Crosstabs Procedure	252
	Running the Chi-Square Test of Independence	256
	Comparing Column Proportions	260
	Adding Control Variables	261
	Creating a Clustered Bar Chart	264
CHAPTER 18:	Showing Relationships between Continuous Dependent and Categorical Independent Variables	267
	Conducting Inferential Tests	268
	Using the Compare Means Dialog	268
	Running the Independent-Samples T-Test Procedure	269
	Comparing the Means Graphically	275
	Running the Summary Independent-Samples T-Test Procedure	277
	Running the Paired-Samples T-Test Procedure	280
CHAPTER 19:	Showing Relationships between Continuous Variables	285
	Viewing Relationships	286
	Running the Bivariate Procedure	288
	Running the Simple Linear Regression Procedure	292
PART 6: GETTING MORE ADVANCED WITH ANALYZING DATA		301
CHAPTER 20:	Doing More Advanced Analyses	303
	Running the One-Way ANOVA Procedure	303
	Conducting Post Hoc Tests	311
	Comparing Means Graphically	314
	Running the Multiple Linear Regression Procedure	315
	Viewing Relationships	325
CHAPTER 21:	What Is Normal Anyway?	327
	Understanding Nonparametric Tests	328
	Understanding Distributions	328
	Running a Nonparametric Independent Samples Test	331
	Running a Nonparametric Related Samples Test	338
CHAPTER 22:	When to Do What	345
	Determining Which Statistical Test to Perform	346
	Using Advanced Techniques	350

PART 7: MAKING SPSS YOUR OWN	351
CHAPTER 23: Changing Settings	353
General Options	354
Language Options	356
Viewer Options	357
Data Options	358
Currency Options	360
Output Options	361
Chart Options	362
Pivot Tables Options	364
File Locations Options	365
Scripts Options	366
Multiple Imputations Options	368
Syntax Editor Options	369
Privacy Options	370
CHAPTER 24: Editing Charts and Chart Templates	371
Changing and Editing Axes	372
Changing the axis range	372
Scaling the axis range	373
Changing Style: Lines and Symbols	376
Editing chart lines	376
Editing data points	378
Applying Templates	380
CHAPTER 25: Editing Tables	383
Working with TableLooks	384
Style Output	387
Pivoting Trays	390
PART 8: PROGRAMMING SPSS WITH COMMAND SYNTAX	393
CHAPTER 26: Getting Acquainted with Syntax	395
Pasting	396
Performing a Series of Related Compute Statements	399
Labeling	400
Repeatedly Generating the Same Report	400
CHAPTER 27: Adding Syntax to Your Toolkit	403
Your Wish Is My Command	404
Understanding Keywords	405
Declaring Data	406
Commenting Your Way to Clarity	407

Running Your Code	408
Controlling Flow and Executing Conditionals	410
IF	410
DO IF	411
SELECT IF	412

PART 9: THE PART OF TENS 413

CHAPTER 28: Ten (or So) Modules You Can Add to SPSS 415

The Advanced Statistics Module	416
The Custom Tables Module	416
The Regression Module	418
The Categories Module	418
The Data Preparation Module	419
The Decision Trees Module	419
The Forecasting Module	420
The Missing Values Module	421
The Bootstrapping Module	421
The Complex Samples Module	422
The Conjoint Module	422
The Direct Marketing Module	422
The Exact Tests Module	423
The Neural Networks Module	424

CHAPTER 29: Ten Useful SPSS Resources 425

Supporting Websites for This Book	425
LinkedIn and LinkedIn Groups	426
IBM SPSS Statistics Certification	427
IBM Data Science Community	427
SPSSX-L	427
Online Videos	428
Twitter	429
Live Instruction	430
Asynchronous Instruction and Tutorials	431
SPSS Statistics for Data Analysis and Visualization	432

CHAPTER 30: Ten SPSS Statistics Gotchas 433

Failing to Declare Level of Measurement	433
Conflating String Values with Labels	434
Failing to Declare Missing Data	435
Failing to Find Add-on Modules and Plug-Ins	435
Failing to Meet Statistical and Software Assumptions	437

Confusing Pasting Syntax with Copy and Paste	438
Thinking You Create Variables in SPSS as You Do in Excel	438
Getting Confused by Listwise Deletion.....	439
Losing Track of Your Active Dataset	440
Forgetting to Turn Off Select and Split and Weight	441

INDEX.....	443
-------------------	------------
