Author Biographies	ix
Guest Contributors	xi
Preface	xiii
Acknowledgments	xv
1 Natural Landscapes and Human Health: an Introduction and Overview	1
Defining Terms and Concepts	1
Foundations	4
The Importance of This Book	5
Who is This Book For?	7
2 Human Perceptions of Nature	10
What Are Worldviews?	10
What Is Civilization?	12
A History of Humans' Worldviews	12
Related information: Cooperation and interdependence are the basis of life on earth	16
India: Inner and outer lives are influenced by landscapes	17
Worldviews and Choice and/or Where Do We Go From Here?	22
3 Natural Landscapes and the Health Crisis	25
Aotearoa: Māori and <i>pākehā</i> value ancestral lands and biophilic cities	26
Landscapes Are Not Always Healthy for Humans	27
Health Risks from Polluted Environments	29
Climate Change	30
Destruction Can Be Profitable	32
Indigenous Perspectives	33
Grief and Reconciliation	34
4 Theories and Concepts: Linking Landscapes and Health	38
Evolutionary-based Theories	39
Restorative Environment Theories	40
Identity-based Theories	43
Australia: Indigenous teaching through stories and songlines, and from Mother Earth	45
Other Psychological Theories and Concepts	47
Conclusion	48

5 Outcomes, Benefits, and Opportunities: Western Research Trends	52
Exposure to Nature Increases Human Well-being	53
Developing a Body of Knowledge	53
Taiwan: Forest therapy is an antidote to the diseases of civilization	61
Technological Advances Influence Research	62
Research Informs Practice and Practice Informs Research	63
6 Applications: Facilitating Healthy Connections with Nature	67
Applications	68
Israel: Nature-based interventions in a rich and diverse landscape	74
Other Cultural Frameworks	75
Conclusion	78
7 Connecting with Landscapes: Intentional Access to Green Space	83
Environmental Narratives	83
Related information: What's in a name?	84
Conservation and Preservation	84
Green by Design	87
China: Wellness tourism focuses on interaction with natural landscapes	92
Socioecological Approach to Human Health	92
Conclusion	93
8 Conclusions and Desired Future: Take a Park, Not a Pill	96
Research and Evidence: Considerations for the Future	97
Developing a Desired Future	100
Japan: Mountains, the outdoors, and new challenges with COVID-19	102
Guiding Principles	105
What Can We Do?	106
References for Introductory Chapter Quotations	111
Index	113
